One-Time Registration Instructions

Getting started:

For the one-time registration, you will need:

The personal mobile device you wish to register (fully charged) – iOS 9.0 or later for iPhones and 6.0 or later for Android.

2 Your auspost login username and password.

3

A computer connected to the auspost IT Network.

Step 1:

Downloading the two apps onto your personal device.

1.1 Open your App store on your personal mobile device.

(Apple App Store for iOS devices or Google Play Store for Android devices).

- 1.2 Type 'Microsoft Authenticator' into the search bar.
- **1.3** Click **'get'** (iOS device) or **'install'** (Android) to download the Microsoft Authenticator app.
- 1.4 Repeat steps 1.2 &
 1.3 to download the
 'UKG Dimensions' app.
 Note: these apps are free.

Step 2:

Logging into your auspost account.

- 2.1 Move to the computer.
- 2.2 Open an internet browser and type in www.ourpost.com.au/wfd
- 2.3 Highlight and copy the script text under the 'UKG Dimensions App' heading and then right click and select 'Copy' or use 'Ctrl+C'.

- 2.8 In the black box, right click and '**paste**' the script text into the black box. Press '**enter**'. A new browser will appear.
- 2.9 Type in your login credentials – firstname.lastname@ auspost.com.au and then your password. A new browser will appear.
- 2.10 Follow the prompts to move to the 'My Sign-Ins' page.

Step 3:

Registration of your personal device to your auspost account.

- 3.1 Select 'Add method'.
- **3.2** Select 'Authenticator App'.
- 3.3 Select 'Add'.

Step 4:

Connecting the Microsoft Authenticator app to your auspost account.

- **4.1** Move back to your personal mobile device.
- **4.2** Open the 'Microsoft Authenticator' app and follow the prompts on screen to link the app to your auspost account by selecting:
 - a. Allow.
 - **b.** OK.
 - c. Add account.
 - d. Continue.

- 4.3 Move back to the computer.
- 4.4 Select 'Next'.
- 4.5 You should see 'Set up your account'. Select 'Next'.
- 4.6 Select 'Work'.

- **4.7** A **'QR'** code will now be displayed on your screen.
- **4.8** Move back to your personal mobile device with the **'Microsoft Authenticator'** app open.
- **4.9** Scan the **'QR code'** on the computer screen.
- **4.10** Move back to the computer. Select:
 - a. 'Next'.
 - b. 'Done'.
- **4.11** Follow the prompts to complete the process of connecting your work account to your Microsoft Authenticator app.

Step 5:

Enabling the Microsoft Authenticator app sign-in.

- 5.1 Moving back to your personal mobile device select your account now displayed in the 'Microsoft Authenticator' app.
- **5.2** You should see your details and a six digit code displayed.
- 5.3 Select 'Enable/Approve phone sign in' (use the drop down arrow for Android devices).
- 5.4 Follow the prompts to complete the registration process – if you are asked for a password, it is the method that you use to unlock your personal device (i.e. finger or facial scan or a code).

Step 6:

Setting up the UKG Dimensions app

- Open the 'UKG Dimensions' 6.1
- 6.2 Select the 'Scan' icon and usi your personal device scan the 'QR Code' on this page.
- 6.3 If you are having trouble scanning the QR code, type i https://australiapost-SSO. prd.mykronos.com into the 'Tenant URL' field and press

app Dimensions' app. 1' icon and using	Tenant URL Scan Ok
 a trouble a code, type in: iapost-SSO. com into the and press 'OK'. 	IMPORTANT! Scan this QR Code
